

View of Lake Winnepesaukee from Cople Crown

Cople Crown

Cople Crown Mountain, the highest point in Brookfield, has an elevation of 1,868 feet. The summit and much of the surrounding land on the Brookfield side is owned by the Lakes Region Conservation Trust, which has built a trail to the summit with the cooperation of adjoining property owners. There are several viewpoints near the top of the mountain, including this scenic overlook toward Lake Winnepesaukee.
