

Mountain Lake

Ellis Hatch Wildlife Management Area

This 1,493-acre property owned and managed by NH Fish & Game has important deer wintering areas, ponds and streams, and a network of wetlands for waterfowl. The terrain is hilly and steep in places and marked by occasional trails. This area is also home to moose, bear, coyote, grouse, otter, beaver, turkeys, snowshoe hare, chipmunks, squirrels, hawks, ruffed grouse, American woodcock, many different songbirds and waterfowl species. . Mountain Pond (shown above) drains into Hanson Brook, which connects with other rivers and streams that eventually drain into the Atlantic Ocean.

Hanson Brook drains from Mountain Lake
